Subject: IGCE for ERRS on ERs discussion
Attachments: FY18 OSC - START Responses -- 07-05-18.doc; FY18 OSC - START Responses -- 12-07-17.doc

Talked with Mike McAteer after we talked this afternoon to find out which recent incident Paige was referring to during her discussion with you and OEM. The incident he had trouble with was the RV Resort Park in Port Arthur during Harvey. State of Texas requested assistance around noon, while Mike was driving. He called the CO to request that ERRS be activated and was asked for an ICGE and SOW. He explained to the CO that he was driving to another response in the area and was not near his computer. He explained what he needed for ERRS to do and asked CO to have ERRS activated to the oil spill. He said he identified a number of ERRS he need and general equipment. He said he told the CO that once ERRS was activated they would call him for more specifics. I do recall that Craig and I met with the CO after this incident as it had been raised at the October OSC meeting. Do not know that it remains an issue. Though we have activated ERRS for ERs in FY 2018, since October 1, 2017, we have activated ERRS four times during normal hours for ERs (Navasota Mercury – Greg Fife, HP Gas Cylinders – Mark Hayes, ARCO Abandoned Pipeline Oil Spill – John Martin, E18618 -- Mystery Oil Spill – Pratistha Adams).

I will follow up with Greg, Mark, John and Pratistha to see if they encountered any problems/delays activating ERRS during normal business hours.

Monica –

Ronnie might need a quick update on this. He doesn't seem to know about it.

Thanks and sorry for kicking a hornet's nest (if that's what happened)

Subject: IGCE for ERRS on ERs discussion

Hey,

On the OSC Readiness Work Group call today, I discussed the IGCE requirement during work hours prior to activation of ERRS for an ER. Josh and Brian said they'd like to discuss with you (I think they said on the next RM Call/Meeting). I didn't want you to be surprised by the question or discussion.

Thanks

Paige Delgado
